## Classic American Purse Holder

While prominently displaying your logo, this elegant 1 1/8 inch purse holder balances on the edge of a table holding the owner's purse, keeping it off the floor, easy to reach and clearly visible. This product can also be delivered as lasered cloisonné, regular cloisonné or soft-enamel.

The classic purse holder is a time tested product.

We pulled advertisements from early 20th century popular mechanics style magazines and recast into a new clean and modern design. It has a soft non-scratch foam cushion under the emblem to keep it from sliding off the table and a carefully balanced hook arm. The entire product is hand polished with a superior surface finish.

A soft ring of foam keeps the purseholder firmly on the table.
