Index Our Products At A Glance...

LASERED CLOISONNÉ on HARD FIRED CLOISONNÉ

Cloisonné enamel without metal around each color. This process reproduces the smallest details not possible with any other process. Any design can be reproduced using lasered cloisonné without metal around each color and without having to adapt the emblem to the process. High Polish 14K Gold or Platinum plate.

Pages 4-5

HIGH POLISHED METAL Featuring DULL MATTE, STIPPLED or FLORENTINE backgrounds. **MINIATURE BADGES**

Die struck to show the beautiful contrast between the polished metal and the textured background. Especially attractive when combined with cloisonné or soft enamel color. Cloisonné is level with the polished metal. Dull Matte, Stippled or Florentine are three optional finishes for the background.

Pages 8-9

PHOTO ETCHED with or without epoxy dome

Great inexpensive process for small details. This process looks like cloisonné. Process is chemically etched into brass enabling better small detail reproduction (a thin wall separates each color). The emblem is then baked for durability and polished for a beautiful appearance. PMS color match at no additional charge.

PATCHES & APPLIQUES

Computer embroidered patches and appliques, with up to 7 threads of color included.

Pages 48-49

Pages 44

GENUINE CHENILLE

Chenille letters, numbers and logos are used by educational institutions, professional, amateur and youth sports. Applied

Washable, dry-cleanable and extremely durable.

Pages 6-7

Pages 10-11

HARD FIRED CLOISONNÉ

Each design is stamped into brass. The recessed areas are inlaid with a cloisonné paste made of water and a powder of finely ground colored glass. Then fired at a high temperature until the glass fuses to the metal. The result is then carefully polished until the surface of the glass is level with the metal.

High Polish 14K Gold or Platinum, Antique Gold or Bronze plate

SOFT ENAMEL (Die Struck)

Die struck metal has the same thickness as used for cloisonné. The recessed areas are color filled with dull or glossy soft enamel. We highly recommend dull soft enamel, because it creates more contrast between the raised polished metal and the recessed enamel. PMS color match at no additional charge.

SILK SCREEN & OFFSET PRINTING

Die struck hand polished metal. Each color ink is squeezed through silk mesh. The mesh has the design burned into it so that the ink is applied only to the areas to be colored. This process brings vivid colors and fine details to your project. Four color process available with Offset Printing.

High Polish Gold or Platinum plate

CELL PHONE CHARMS

Popular for decorating cell phones, MP3 players and backpacks.

If you need a logo seen by a younger demographic, this is your hip new ticket!

Pages 38

3D CASTINGS

Our custom hand poured casts offer 3D high definition details in a variety of metal platings.

Available in push pins and lapel pins.

Pages 12-13

to uniforms and "letter" jackets.

Perfectmatch

EMPLOYEE RECOGNITION

NEW - Now with foil imprint Make a lasting impression with employees by giving them a sign of appreciation. Perfectmatch is making this easier than ever with our exciting new 5 day delivery stock employee appreciation pin.

Pages 18-21

High Polish 14K Gold plate.

BOTTLE CAPS

Introducing our NEW Bottle Cap Stock Shape. 1" diameter, light weight, high quality jewelry. Available in 5 day production in platinum plate metal.

Pages 24-25

No tooling charges!

Pages 30-31

PHOTO REPRODUCTION with EPOXY DOME

Photographically reproduce any full color image. This is an inexpensive way to do many colors without color setup charges. To best understand how this process works, imagine taking a photograph of your art, cutting it out and sticking it on the custom shaped metal pin, then covering it with a protective epoxy dome.

High Polish 14K Gold or Platinum plate.

Pages 34-35

THIN BORDER STOCK SHAPES

Photographically reproduce any full color process. An inexpensive way to do many colors without many color setup charges. No epoxy dome necessary.

High Polish 14K Gold or Platinum plate.

Classic American Purse Holder

While prominently displaying your logo, this elegant 1 1/8 inch purse holder balances on the edge of a table holding the owner's purse, keeping it off the floor, easy to reach and clearly visible.

The classic purse holder is a time tested product. We pulled advertisements from early 20th century popular mechanics style magazines and recast into a new clean and modern design. It has a soft non-scratch foam cushion under the emblem to keep it from sliding off the table and a carefully balanced hook arm. The entire product is hand polished with a superior surface finish.

A soft ring of foam keeps the purse holder firmly on the table.

General Information

Acknowledgments

All orders are acknowledged in writing. Please review the acknowledgment carefully and advise immediately if there are any discrepancies from your original instructions.

Artwork

Our preference is camera ready artwork 3-4 times the size of the final product. Digital artwork, must be at least the size of the final product @ 600 dpi. We accept PSD, ESP, PDF, JPEG, TIFF and Illustrator files. Preferred type of digital artwork is flat jpg at 300 dpi or better of the final product. Colors MUST be specified in writing as PMS for each color in a product. Specify as swatches next to artwork with written PMS reference.

Backside Imprint

Requires an additional tooling charge. Add \$ 0.30 (R) each. (Distributor imprint available at reduced rate.)

Consecutive Numbers Available on backside only. Add \$ 0.30 (R) each.

Co-Op Program

Each order must be for catalog minimum. Take first column quantity and use second column price. Second column is minimum to take end quantity price (EQP). Orders must be accompanied with back up literature.

Corrections or Cancellations

An order in process is subject to costs incurred to date of cancellation, and a \$ 25.00 (X) cancellation fee.

Curved Top Metal

Convexed and shaped before the die is cut. Not to be confused with an epoxy dome. Add \$ 0.50 (P) each. Also, add an additional \$ 40.00 (R) tooling charge 1" or smaller.

Delivery Time

Normal manufacturing time is required for shipment of order after approval of pre-production sample. See catalog page for selected process production times.

Double Face Adhesive tape Add \$ 0.20 each.

Epoxy Dome Transparent protective epoxy coat, covering top layer of emblem. Prices vary for different processes. Please see catalog page for selected process.

Flats

Use emblem price on catalog page showing selected process.

Large Quantity Orders Contact customer service.

Less Than Minimum Add \$ 200.00 (P). See designated process for each LTM charge. \$ 50.00 (P) LTM for all stock item orders under \$ 100.00 (P).

Packaging

Each item individually packaged in poly bag. See page 52 & 53 for special packaging.

Paper Cards

Available upon request. Contact customer service for details. Additional handling fees apply for orders with cards supplied separately, and need to be attached in-house. \$ 0.80 (P)/piece. Price includes attachment and poly bagging.

Paper Proofs

Available on request. First proof is free, each additional with corrections is \$ 20.00 (X).

Plating: See all plating options on page 50. Some platings are not available for all processes.

Perfectmatch

PMS Colors

No additional charge to match PMS colors.

Pre-Production Sample

Add \$ 80.00 net plus applicable additional charges. \$ 40.00 rebated upon approval of sample. Rebate not available under 300 pieces.

Repeat Orders No tooling charge for EXACT repeat orders.

Rush Orders No penalty for our rush service. If it can be done, we just do it.

Shipping

F. O. B. Los Angeles, CA. Freight prepaid and added to invoice. We ship UPS except when instructed otherwise. For drop shipments add \$ 10.00 (X) per each location.

Superior Plating

Add \$ 0.80 (R) for hand polished, triple plated and hand polished on the backside and all sides for a mirror finish.

Stones

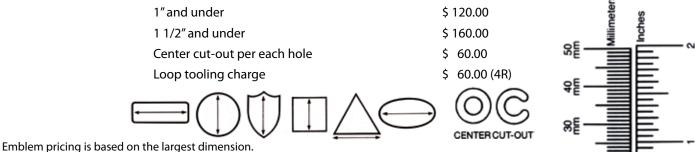

We proudly offer genuine and synthetic stones. We feature Swarovski crystals for our synthetic stones. See page 50.

Tabs & Bars

Custom Tabs and Custom Bars measure from side to side & use designated process page for prices. See our stock rocker & ribbon style tabs on page 20.

Tooling Charge

Tooling charge for interior design and each metal change. Measure largest dimension, and size or shape. A new die is required for each metal change including year changes, number changes, stones etc. and for Silk Screen outside shape.

Emplem pricing is based on the largest dim

Trademarks

Perfectmatch assumes distributors are authorized to use trademarks presented to use for reproduction. We assume no liability in trademark or copyright disputes.

Pricing & Typographical Errors

Catalog pricing is based on the current price at time of publishing, and is subject to change with market conditions. Please note we make every effort to ensure everything in the catalog is accurate, but we are not responsible for information printed in error.
