## Stock & Custom Awareness Ribbons

Available with a custom logo digital imprint on our new aluminum stock shape. 1 1/4" from top to bottom. See page 23 for custom prices.

## LASERED CLOISSONNÉ on HARD FIRED CLOISSONNÉ

Cloisonné enamel without metal around each color. This process reproduces the smallest details not possible with any other process. Any design can be reproduced using lasered cloisonné without metal around each color and without having to adapt the emblem to the process.

Pages 6-7

## HARD FIRED CLOISSONNÉ

Each design is stamped into brass. The recessed areas are inlaid with a cloisonné paste made of water and a powder of finely ground colored glass. Then fired at a high temperature until the glass fuses to the metal. The result is then carefully polished until the surface of the glass is level with the metal.

Pages 8-9

High Polish 14K Gold or Platinum, Antique Gold or Bronze plate

## DIGITAL PRINTING

Introducing our newest and fastest process yet. Digital printing on our stock cloisonné and aluminum pieces. Rich, vibrant color, without all of the hefty setup charges per color.

Pages 20-21

Now available with our new SUPERSIZED Aluminum shapes.

## EMPLOYEE RECOGNITION

5DAY recognition solutions Easy mix-n-match number pins in stock and ready to ship with **Your imprint in 5 days or less.** Perfectmatch solved the last minute stress.. we got you covered.

Page 21-22

High Polish 14K Gold plate.

## HIGH POLISHED METAL

Featuring DULL MATTE, STIPPLED or FLORENTINE backgrounds. **MINIATURE BADGES**

Die struck to show the beautiful contrast between the polished metal and the textured background. Especially attractive when combined with cloisonné or soft enamel color. Cloisonné is level with the polished metal. Dull Matte, Stippled or Florentine are three optional finishes for the background.

Pages 10-12

## SOFT ENAMEL (Die Struck)

Die struck metal has the same thickness as used for cloisonné. The recessed areas are color filled with dull or glossy soft enamel. We highly recommend dull soft enamel, because it creates more contrast between the raised polished metal and the recessed enamel. PMS color match at no additional charge.

Pages 12-13

## 3D Print Lapel Pins

New ORIGINAL process 100% American made in Los Angeles Make dimensional pins from your clients logo or even from ideas. available as 2D or completely 3D with impossible shapes. Ask for a free sample.

Pages 18-19

## THIN BORDER STOCK SHAPES

Photographically reproduce any full color process. An inexpensive way to do many colors without many color setup charges. No epoxy dome necessary.

Page 30

High Polish 14K Gold or Platinum plate.

## PHOTO ETCHED

with or without epoxy dome

Great inexpensive process for small details. This process looks like cloisonné. Process is chemically etched into brass enabling better small detail reproduction (a thin wall separates each color). The emblem is then baked for durability and polished for a beautiful appearance. PMS color match at no additional charge.

Pages 16

## SILK SCREEN & OFFSET PRINTING

Die struck hand polished metal. Each color ink is squeezed through silk mesh. The mesh has the design burned into it so that the ink is applied only to the areas to be colored. This process brings vivid colors and fine details to your project. Four color process available with Offset Printing.

## PATCHES & APPLIQUES

Computer embroidered patches and appliques, with up to 7 threads of color included.

Pages 38-39

## CELL PHONE CHARMS

Popular for decorating cell phones, MP3 players and backpacks.

Pages 32

If you need a logo seen by a younger demographic, this is your hip new ticket!

## GENUINE CHENILLE

Chenille letters, numbers and logos are used by educational institutions, professional, amateur and youth sports. Applied to uniforms and "letter" jackets.

Pages 41

Washable, dry-cleanable and extremely durable.

## 3D CASTINGS

Our custom hand poured casts offer 3D high definition details in a variety of metal platings.

Page 41

Available in push pins and lapel pins.

## PRINTING on CLOISSONNÉ or HAND POLISHED METAL

Using beautiful white Cloisonné background or solid Hand polished metal with 14K Gold or Platinum plate. Colors are printed on top of the stock shape. Reproduce the look of Cloisonné by printing the colors and leaving metal walls between each color. PMS color match at no additional charge. Available with or without epoxy dome.

Pages 26-29

## PHOTO REPRODUCTION with EPOXY DOME

Photographically reproduce any full color image. This is an inexpensive way to do many colors without color setup charges. To best understand how this process works, imagine taking a photograph of your art, cutting it out and sticking it on the custom shaped metal pin, then covering it with a protective epoxy dome.

Pages 28-29

High Polish 14K Gold or Platinum plate.

## ATTACHMENTS & PACKAGING

Let us customize your emblem to match any occasion. Pieces can easily be made into any of the following: key chains, book marks, cuff links, eyeglass holders, earrings, shoe tags, money clips, bolo ties, necklaces, golf ball markers, safety pins, stick pins and zipper pulls.
